

DARDOUMAS

group

...50 years at your service!

60 Years at your Services...

1963 was simply the beginning !

It was then that we began our activity in the transport sector. Since then many things have changed. But not our commitment to quality and to providing the highest level of service to all our customers.

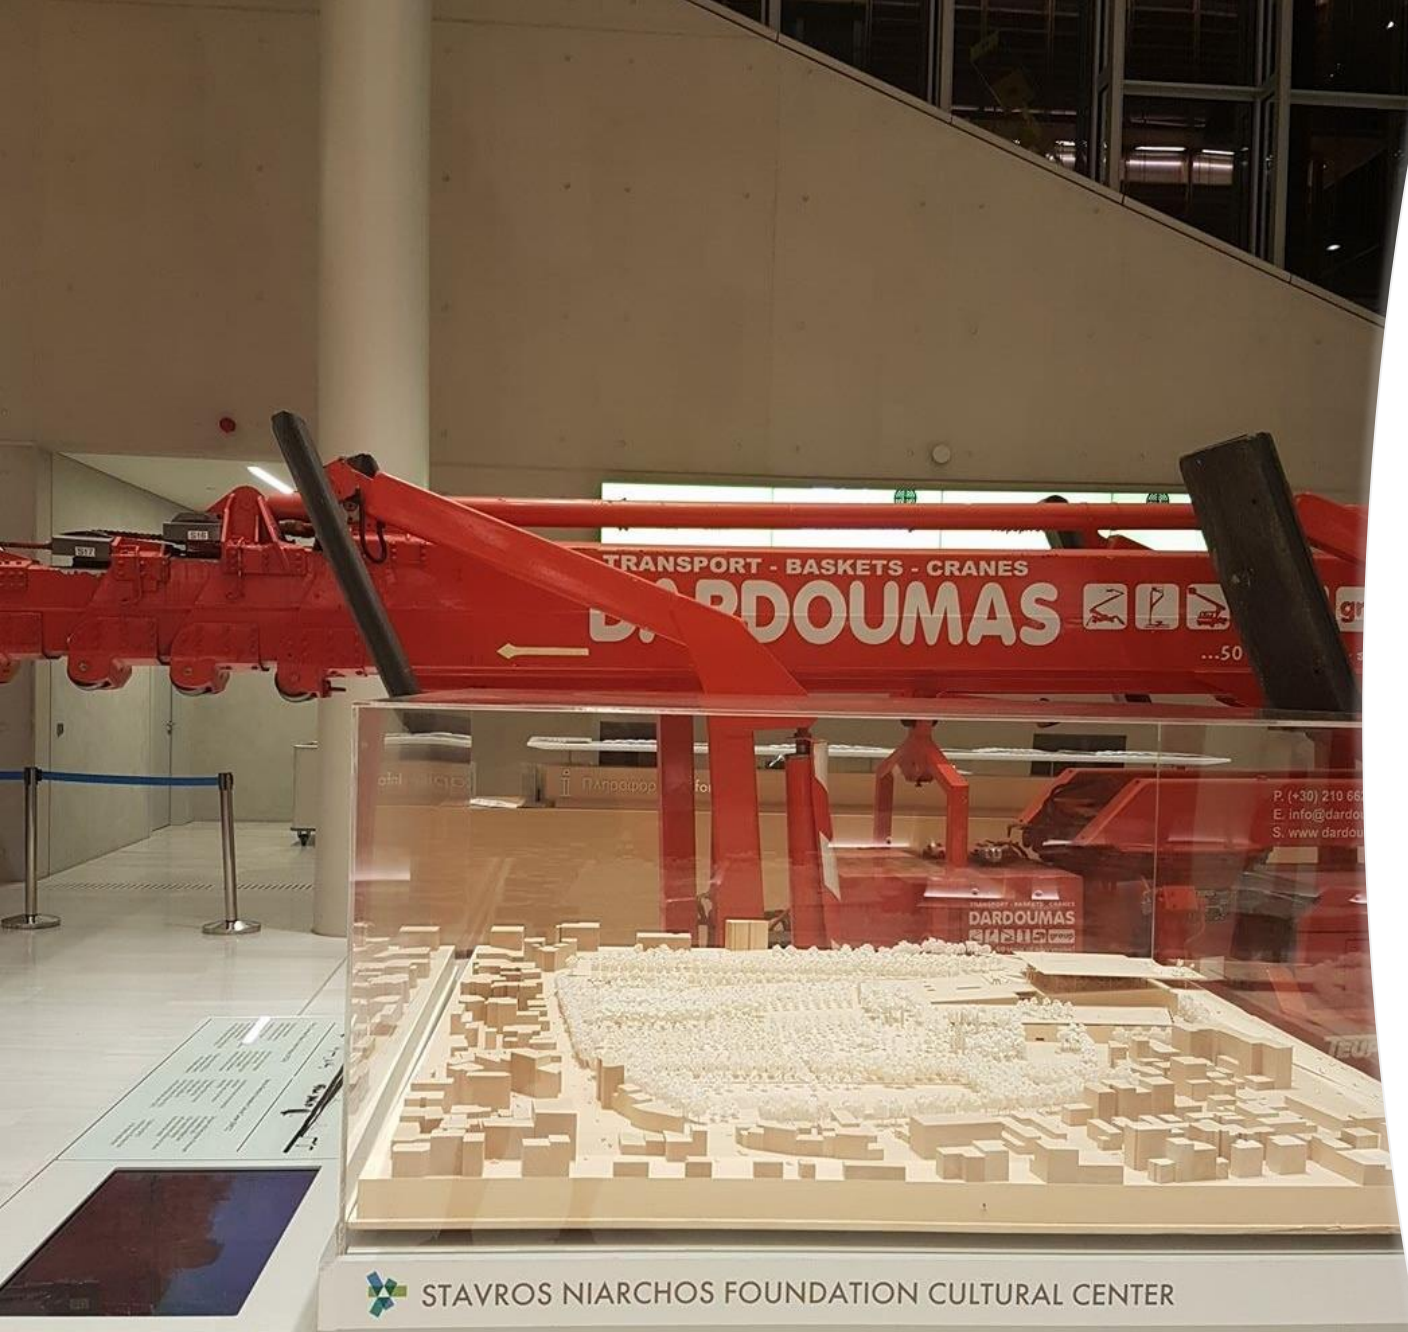

Tasks such as the relocation of corporate equipment, transportation, storage or placement of hotel equipment, transport of household effects, lifting equipment work, storage, packaging and more are our everyday life.

Our people ? Experienced, knowledgeable, highly trained and very friendly.

As for our fleet, our vehicles (bucket crane trucks, cranes, elevators and dozens of others) are the most modern in the world market today.

Ready to respond with absolute success to the most specialized lifting project, to the most demanding building decoration, to the most difficult task you can assign to us .

 STAVROS NIARCHOS FOUNDATION CULTURAL CENTER

Indicative services in key market sectors

Hospitality (Hotel) Sector

Our experience (in this sector) is vast. For more than 20 years, we have provided transportation , installation and storage of hotel equipment either for the purpose of vacating a hotel to be renovated or to equip a hotel that is about to begin operation. In addition, we undertake the qualitative and quantitative inspection of your equipment so that it can be safely identified by our qualified quality assurance appraiser.

It all begins with studies by DARDOUMAS GROUP engineers..

Then, our specialized staff and the appropriate equipment are put into action with the transport and careful placement of objects.

Do you need to store your hotel equipment in the meantime?

Our spacious and fully secure warehouses are at your disposal!

Film Services - Indicative services in key market sectors

All our projects have a happy end. Because we have the know how, the experience, the infrastructure and vehicles to provide...Oscar worthy advertisement and film services!

- **Set Transfer and Installation**

Our vehicles are the 'leading actors' in the transport and installation of sets for any of your small or large productions, with our operators - drivers as directors!

- **Support for Promotional Teams**

Your promotions, no matter how demanding their transportation and installation requirements may be have a great ally: our vehicles!

- **Lift - Transport and Placement of any Film accesories**

Wherever you require the placement of a **light/truss/camera/corection filters**, no matter how large, you can leave it to us. We will complete -lift it in the best possible way!

- **Support for Film or Ad Shoots**

The transfer of any kind of equipment you may need will be undertaken by our vehicles with speed, consistency and impeccable organization. Any type shooting of a movie or ad you wish to perform, we'll be there to lift your camera or your lighting, help you create artificial rain or snow or whatever else you can imagine.

Indicative services in key market sectors

Shipping Sector:

Our greatest reward is the confidence shown to us by the most important shipowners and the largest shipping companies in Greece

Our impressively large fleet of vehicles and their specialized operators enable us to undertake work on pleasure yachts and yachts at high altitudes and in inaccessible areas (for example, narrow hatches at high altitude and extensive penetration of the crane inside the vessel).

Without exaggeration, we always rise to the occasion.

In addition, we are proud to have assisted in the painting of the largest yachts in the world, by providing our aerial basket vehicles, but also in internal vessel renovations, with the removal and transfer of objects of enormous value, as well as the transportation and installation of new ones.

Indicative services in key market sectors

Banking – Corporate Sector :

It is certainly no coincidence that we are the leading provider of banking equipment relocation. From offices and furniture to the smallest detail, our highly trained staff and the appropriate equipment and vehicles that we provide guarantee an impeccable result. The same guarantee applies to our extensive experience in decommissioning older technology ATMs and the transport and installation of new ATMs.

No matter how large or small your business may be, we will always be at your side. With our staff, our experience and all the necessary equipment, depending on your situation. We undertake the transport and relocation of the equipment of large scale multi personnel corporations, as well as the packaging of personal effects of staff and any other items (computers, printers, copiers, other equipment, document archives etc) that the company may require. We also undertake any external or internal work in corporate buildings or public spaces, using our crane vehicles, while arranging all permits related to parking and interruption of traffic with the appropriate authorities, where necessary.

Our Facilities

Our spaces inspire!

No company can offer high-quality services without the necessary infrastructure. For this reason, our success is due to three factors : people, equipment and vehicles and facilities. Our premises are specially designed to provide our people with ideal working conditions and appropriate storage for the security and maintenance of our equipment and vehicles:

The headquarters of our company, as well as one of the parking locations of our vehicles is located in Agios Dimitrios, at no. 31 and 34 Armodiou St.

Our main vehicle parking and maintenance location is in Koropi. At this facility, over an area of five hectares, is the location of our logistics office, as well as the storage area for tools and equipment.

The main storage warehouse facilities a member of the Dardoumas Group of Companies, are in **Malakasa, Koropi Attica and Pylos, Messinia.**

Our Facilities - Employees

Dardoumas Storage:

Our warehouses complies with the following technical characteristics:

- Surface area of **20.000 sq.m.**
- Unloading ramps
- Alarms, fire detection, fire safety system with automatic fire extinguishing system, closed CCTV monitoring circuit, and additional space for extra equipment.
- Bridge cranes with a lifting capacity of 2.5 tons each
- Walls of 30cm reinforced concrete with unconventional walling comprised of panels
- Easy approach from the National Highway for international transport trucks originating from EU countries
- Guarded overnight truck stop and rest area

Our Employees:

- Administrative / Functional staff - Stakeholders
- Engineers - Safety Technicians
- Craftsmen
- Drivers
- Operators
- Workers
- Warehousemen
- Appraisers
- Quality Assurers

Certifications – Quality Policy

Quality and Safety!

One cannot exist without the other. Two concepts that are "transferred" to every stage of our work, and define our every step. And to ensure that we achieve this to the maximum degree possible, we place enormous importance on two key areas:

1. Materials

The selection of our suppliers is performed with very strict criteria . We only work with the most trusted suppliers, and only with those who offer the best materials, with specific certificates that meet all the basic requirements and regulations of the European Union.

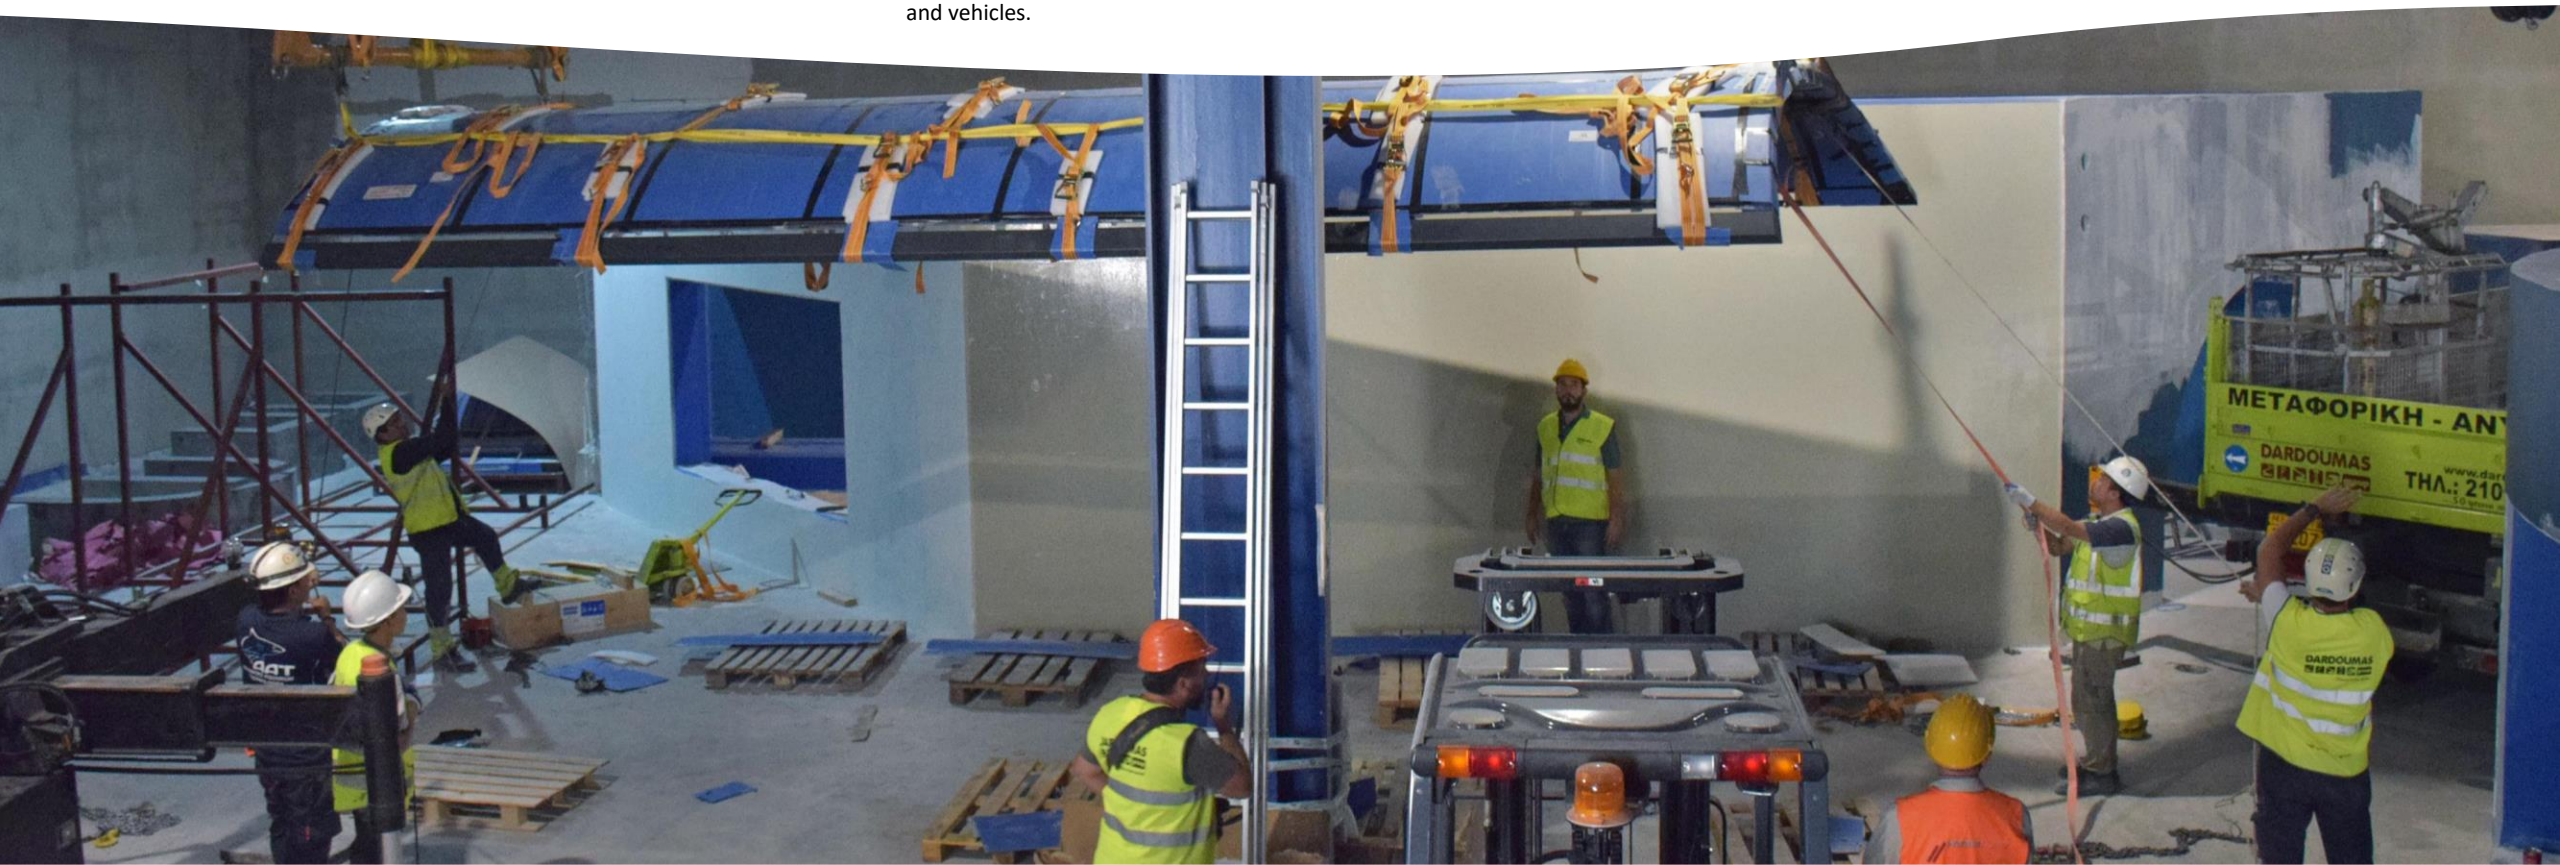

2. Machinery

All our equipment (and there are many), is certified with conformity reports by the International Agency TUV Hellas.

Every piece of equipment or vehicle is subject to frequent checks not only by our own engineers, but by specialized crews we work with.

The result ? Every piece of equipment, every vehicle of the DARDOUMAS GROUP is absolutely safe and ready at any time to fulfil even the most demanding task you will assign us.

Finally, following international practices and developments, our Group has upgraded its system to meet the requirements of international standards specifications, with the ISO 9001 certification system . To receive it, a thorough audit was performed on the operating procedures of all the Group's sections and vehicles.

Health and Safety Policy

We take every measure!

The health and safety of our employees and third parties during our work is a top priority for us. That is why we take every measure that is humanly possible to secure it. The employees of DARDOUMAS GROUP are trained according to the strictest international standards.

Our Safety Technician is not only responsible for training, but constantly supervises the staff in the performance of their duties, from the use of the PPEs (Personal Protective Equipment) until the completion of each job.

The best proof of the excellent training of our staff is the **ISO 9001** certificate we hold.

Occupational Risk Assessment Studies (ORAS)

We try to ensure the safety and health of our staff and third parties who may be at risk either from equipment or the working methods followed.

The Occupational Risk Assessment Study (Risk Assessment Management Plan) issued by us, is delivered to our clients , especially for large-scale operations. It identifies potential hazards and ensures all measures and precautions that are to be taken to reduce these risks.

Certifications – Quality Policy

Quality Assurance Certificates

Following the international practices and developments, our Group has upgraded its system to meet the requirements of international standards, with various certifications. For their issuance, a detailed audit was performed on the operating procedures of all departments and vehicles of the Group.

- Quality Management System Standard **ISO 9001: 2015**, for the provision of packaging services, transport - removal, lifting and installation of equipment, **artworks** and various objects in various places.
- Road Traffic Safety Management System (RTS) standard according to the international standard **ISO 39001: 2012**.

DARDOUMAS **STORAGE**

AdHOC Services

Our storage areas are enormous and equipped with all modern fire and security equipment and, of course, with 24-hour security.

We are ready to host your items for as long as required, as well as perform quality control, if you so desire.

Hotel Equipment Storage

If the renovation of your hotel is vital, the storage of its equipment is equally vital.

Our company engineers will perform all the necessary planning and will provide tailor made proposals for the safe transportation and storage of your hotel equipment.

Another useful service we offer is the qualitative and quantitative inspection of your equipment by our qualified quality assurance appraiser to ensure that it is securely picked up.

After that, our spacious and fully secure warehouses will be properly prepared to welcome your equipment.

AdHOC Services

Corporate Equipment and Record Storage

Do you need to store all or part of your business equipment?

Are your files so numerous that they no longer fit in your facilities?

No problem! We will transport them to our storage areas that are specially designed to meet your every need and requirement, with absolute security.

Household Goods Storage

Your households are so valuable ...

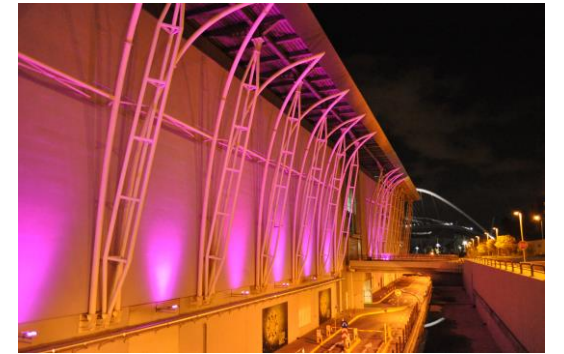

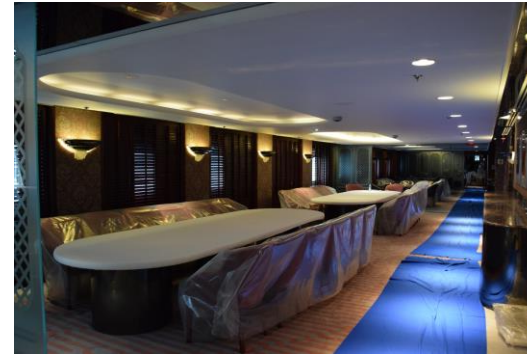

If you wish to have the storage and protection they deserve, we can provide it.

With the highest security standards and 24-hour security, we protect every piece of furniture, every appliance, every object for as long as it takes!

Yacht Equipment Storage

If you are planning to renovate your yacht, all you need to do is reach out to us. We have the best tools to dismantle, transport and store your yacht's equipment. And, of course, to replace it whenever you're ready!

Our warehouses are at your disposal to undertake the protection of your luxury yacht's "world" .. With all available security systems and 24-hour security.
